

REACH Declaration

Nordiska Klimatfabriken AB (Klimatfabriken) is fully aware of the REACH regulation on chemicals and the different requirements and obligations it involves (as far as expected due to the complexity of the regulation).

The role of Klimatfabriken under REACH is as a downstream user of chemicals and a manufacturer of articles, where Klimatfabriken assemble components from subcontractors into completed articles. The articles mainly consist of ordinary materials such as plastics, electronic goods and steel.

Klimatfabriken fulfills its obligations as a downstream user and a manufacturer of articles according to REACH. Klimatfabriken have no obligation to register any of its present products according to REACH.

Concerning substances of very high concern (SVHC) Klimatfabriken have at present no knowledge that its products or packaging contain any of the SVHC proposed to the candidate list.

Klimatfabriken has secured that theirs subcontractors are aware of and will attend to their obligations according to REACH.

Klimatfabriken has the confirmation from its subcontractors that none of the substances on the candidate list are present in Klimatfabrikens products. If it comes to Klimatfabrikens knowledge that its products or packages contain any SVHC, we will inform due parties without any delay

Strängnäs, December 2nd 2016
